PROFESSIONAL SUMMARY

Results-driven Java Developer with 2+ years of experience delivering enterprise-grade Banking Audit, KYC, and Reconciliation systems. Proficient in Java, JSP, Servlets, JDBC, Spring Boot, Oracle, and iBATIS. Proven ability to optimize SQL performance, implement audit workflows, automate financial reporting with Jasper Reports, and resolve production issues — reducing manual effort, improving data accuracy, and delivering scalable solutions.

TECHNICAL SKILLS

Languages & Frameworks: Java, JSP, Servlets, JDBC, Spring Boot, iBATIS

Databases: Oracle, SQL, PL/SQL, Microsoft SQL Server

Tools & Technologies: Apache Tomcat, Maven, Git, Eclipse, Jasper Reports

Web Technologies: HTML, CSS, JavaScript

Domain Expertise: Banking Audit Systems, KYC Compliance, Financial Reconciliation, Production Support, Reporting

PROFESSIONAL EXPERIENCE

Software Engineer — NCS SoftSolutions, Dharmapuri, India

March 2026 – Present

- Develop and maintain Java enterprise applications using JSP, Servlets, JDBC, Oracle, and iBATIS for banking audit modules.
- Analyze business requirements and implement application enhancements, reducing delivery cycle time.
- Write and optimize SQL queries, stored procedures, triggers, and database objects to improve query performance.
- Support banking audit modules including compliance validations, audit trail, and SLA-compliant issue resolution.
- Perform unit testing, debugging, and deployment support in collaboration with cross-functional teams.

Analyst — Bornfire Innovations Pvt. Ltd., Salem, India

October 2023 – February 2026

- Built and maintained banking applications (KYC, Bank Reconciliation, BRF Reporting) using Java, Spring Boot, and Oracle.
- Developed RESTful APIs for real-time system integration, enabling seamless data synchronization across platforms.
- Automated financial report generation using Jasper Reports delivering daily PDF/Excel summaries and compliance reports.
- Optimized SQL queries and stored procedures for large-volume datasets, significantly improving throughput and accuracy.
- Implemented UAE banking compliance checks; reduced manual reconciliation effort through automation.

KEY PROJECTS

SNAP, Revenue Audit & IS Audit | Java, JSP, Servlets, JDBC, Microsoft SQL Server, iBATIS

- Developed audit workflow modules with compliance validations, audit trail management, and management reporting.
- Created and optimized SQL stored procedures; resolved production issues end-to-end for regulatory compliance.

KYC System | Java, Spring Boot, Oracle, SQL

- Built UAE-regulation-compliant KYC platform; automated identity verification, reducing onboarding errors significantly.
- Engineered customer onboarding workflow integrating with core banking systems to streamline data flow.

Bank Reconciliation System — Bank of Baroda, Dubai | Java, Spring Boot, Oracle, Jasper Reports, SQL

- Designed automated reconciliation engine with REST APIs for real-time sync and dynamic pagination for large datasets.
- Automated PDF/Excel financial report generation via Jasper Reports with high transaction-matching accuracy.

BRF Reporting System | Java, Spring Boot, Oracle, Jasper Reports, SQL

- Led financial reconciliation and compliance reporting; built Jasper templates cutting manual reporting effort significantly.
- Integrated automated compliance checks and business validation logic into the reporting pipeline.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

K.S.R. College of Engineering, Tiruchengode, India | August 2018 – May 2022
